About Arnold Center, Inc.

The Arnold Center provides light manufacturing processing in over 25,000 square feet of production space in our two quality driven production facilities located in Midland and Gladwin Counties. Each facility is equipped with ample storage space, and both have tractor and ground level loading docks. Established in 1967 the Arnold Center has provided over 55 years of vocational training and employment opportunities for individuals with disabilities.

The Arnold Center can assist you in improving the efficiency and quality of your specific operation by using our unique methods and staff. Many local businesses have grown to appreciate and expect a variety of quality production services tailored to meet each customer's unique need.
