

MIDLAND CASE SYSTEMS

WHO IS CASE SYSTEMS & BOSTONTEC? *INSTITUTIONAL & INDUSTRIAL PRODUCTS IN MICHIGAN*

Far from its beginnings as a humble regional casework supplier, Michigan's Case Systems and its later acquired steelwork company—BOSTONtec®, have quickly grown to become the nationally recognized powerhouse of manufacturing we know today. By following lean manufacturing and continuous improvement principles, they continue to expand their business model to meet and exceed the needs of customers, with a product and service package that is unparalleled. Their dynamic staff utilizes the most advanced technology to ensure products are built to the highest standards. Employee tenure is also a point of pride for the companies, where customers benefit from the centuries of collective experience. Surely their core values—Teamwork, Integrity, and Positive Attitude, Achievement, and Growth, lay the foundation for their continual success.

WHAT WE DO

As a market leader in the casework industry, Case Systems shapes the environments in which you work and play, by specializing in producing high volume plastic laminate cabinetry and furniture for commercial and institutional settings. Our 'design your work' slogan and, "Your work. Your space. Your way." approach highlights our commitment to developing elegant, practical, and flexible furniture and casework solutions that meet unique customer needs. Along with our ergonomic height-adjustable workstations division BOSTONtec— we manufacture for monoliths of the assembly and packaging & fulfillment industries, and develop encompassing approaches to professional laboratory settings, STEM facilities, and more. Our many U.S. made solutions are manufactured and shipped nationwide from our shared 170,000 square foot, Midland, MI facility.
