

Putting Our Expertise to Work for You

At Three Rivers Corporation, we believe that proper planning leads to successful execution. That's why our team brings a unique blend of experience and knowledge in construction, safety, and project efficiency to every project. Whether you need a general contractor, design/build partner, or construction manager, we've got you covered. We approach every project with a problem-solving mindset and a willingness to learn, evolve, and adapt to meet your needs.

Three Rivers Corporation is a multidisciplinary construction firm based in Midland, MI, with over 45 years of experience and a team of over 350 professionals and craftspeople. We've built long-standing relationships with our valued customers statewide and have a solid track record of performance. Our depth and experience make us confident we can deliver your project on time and within budget.

From Planning to Completion: How We Deliver Successful Results

Design/Build

Some construction companies may choose to outsource their Design/Build teams, but we pride ourselves on being a true Design/Build company with an exceptional in-house team. Our team includes AIA and state-registered architects, experienced designers, skilled project managers, and detail-oriented estimators working together to deliver outstanding results.

Our approach to Design/Build allows us to offer our customers single-source accountability for every aspect of their project. From the earliest stages of design to the final construction, we are fully involved in the project, ensuring clear communication, accurate budgets and schedules, and a smoother overall process.

Construction Management

The most efficient path to success for large, complex projects is through a collaborative effort that includes owners, architects, engineers, and construction management professionals. By involving all parties from the outset of the project, with early contractor input, we can reduce costs and move forward quickly without sacrificing attention to detail.

We place great value on building long-term relationships with our clients, and we understand that trust is a critical component of any successful partnership. We also place a premium on our pre-qualified subcontractors, who demonstrate excellent safety management and share our commitment to delivering exceptional results. Through teamwork, expertise, and attention to detail, we can consistently exceed our client's expectations and deliver successful projects.

General Contracting

General contracting is a highly complex endeavor, requiring expertise in managing multiple subcontracting partners, countless fine details, and numerous critical decisions. Success in this field comes from building experience and relationships over time, and it's only through this hard-earned knowledge that exceptional results can be achieved.

We understand the importance of building long-term relationships with our clients. We're proud to say that over 70 percent of our clients choose to work with us again, which is a testament to the care and attention we bring to every project. We deliver exceptional results that exceed expectations by placing our client's needs and goals at the forefront of everything we do. Our commitment to quality and customer satisfaction is unwavering, and we work tirelessly to ensure that each project we undertake is successful.
